A NEW LIFE AFTER LIFE
biodegradable tubes and boxes

P E T S

TUBES AND BOXES

Not only cats and dogs, but also birds, fish, small rodents, turtles...there are so many companion pets of small sizes whose importance in our lives has been great.

Est Sine Die offers a range of biodegradable boxes to give the possibility to their owner to bury them in a dignified way. Once they are left in the natural environment they will not be harmful for plants and animals.

Bigger boxes are suitable for cats and dogs too.

It is a very important choice for all the people who loved to share their spare time outdoors in the nature with their pets.

Ask for information to to the Funeral Agency or to the local Government Authority when you dispose of the ashes in an open space, lake or river.

TELLUS - EARTH BURIAL

Following the logic of the circle of life, burial in earth is the most natural among the burial practices.

TELLUS is an ecological cardboard box covered with floral or colourful ecologic paper.

It is possible to open it from both sides and it is adorned with a fabric or a ribbon of natural fiber folded around it.

Inside, we place a seeded paper sheet. It has to be placed in the ground or in a pot and wait for the seeds to sprout.

METHOD OF USE

INSERT THE CREMATION ASHES INTO THE BIODEGRADABLE BAG

INSERT THE BODY OF THE DEAD PET

PRESERVE THE ASHES UNTIL THE BURIAL OR SCATTERING TIME

IT INCLUDES

BIODEGRADABLE BAG TO CONTAIN THE ASHES

SEEDED SHEET OF PAPER TO BE PLANTED

A BRIEF CARD DESCRIPTION OF THE GOD TELLUS

Rose petals are supplied on request if you want to sprinkle them over the final resting place.

SIZES AND CAPACITY

Maxi cm 45 L x 30 W x 10 D – It 9,8

Large cm 25,50 L x 22,50 W x 4,8 D – It 2,15

Medium cm 27,50 L x 14,50 W x 4,30 D – It 1,35

Small cm 13 L x 12,50 W x 3,50 D – It 0,50

EGERIA - WATER BURIAL

EGERIA is an ecological cardboard box covered with floral ecologic paper. It is possible to open it from both sides and it is adorned with a fabric or a ribbon of natural fiber folded around it.

EGERIA, which contains a biodegradable bag to preserve the cremation ashes, has been designed to float for a while before gently immerse among the waves and dissolve over time. Each biodegradable urn has small holes to help it to slid faster in the sea depth. EGERIA will allow the ashes not to be swept from the wind and it will keep them together until their sink.

METHOD OF USE

INSERT ONLY THE CREMATION ASHES INTO THE BIODEGRADABLE BAG (IT IS NOT FOR THE PET BODY)
PRESERVE ASHES UNTIL THEY ARE IMMERSSED IN THE WATER

IT INCLUDES

BIODEGRADABLE BAG TO CONTAIN THE CREMATION ASHES

Medium cm 27,50 L x 14,50 W x 4,30 D - It 1,35
Small cm 13 L x 12,50 W x 3,50 D - It 0,50

CONSO - FOR SCATTERING IN OPEN AIR

The scattering of ashes is very popular among pet owners. It is a very touching experience and one of the reasons why they opt for spreading ashes is the belief that the pet becomes one with nature.

The tube is attractive with a black paw print on the top and smaller black paw print cycling around it.

If you prefer to customize it with your own style, we also have white and black colour. CONSO is designed to keep the ashes safe.

Being made from cardboard, it is eco-friendly and it can be recycled after use.

Our memorial rose petals, natural and biodegradable 100%, can be mixed with ashes inside CONSO. They look and feel like fresh petals.

When ready to scatter, slide the top off, push gently the perforated tab and ashes can easily be spread to the four winds.

IT INCLUDES

NATURAL FIBER BAG CONTAINING TREE SEEDS.
BRIEF DESCRIPTIVE CARD OF THE GOD CONSO.
ADHESIVE STICKER TO WRITE THE NAME OF THE DECEASED PET.

Petals are supplied upon request.

SIZES AND CAPACITY

White - cm 7,50 Ø x 13 H - Small - lt 0,33
